Student and Parent Testimonials

"I would absolutely recommend to other people. Really clear explanations and tips on how to approach more difficult questions. Important notes handed out also which helped in the exam. Appreciated Joe replying to any queries and giving advice on how to approach the exams too. Thanks again"

Kian Hopkins (6th Yr Higher Level Student)

"Hi Joe, my daughter and I were just talking about you and how helpful your classes have been. Your support over the last number of months has been huge and we are very grateful for that. I'll certainly recommend your classes and wish you all the best in the future."

Aisling Corcoran (Parent of 6th Yr Higher Level Student)

"Joe's class has been instrumental in helping our daughter with her Leaving Cert Mathematics. She enjoyed his course and his way of teaching the subject. He is thoroughly an expert in the field and is always on hand to help on any areas of difficulty. I highly recommended his tutoring.'

Paul Guy (Parent of 5th Year Higher Level Student)

"After a couple months of classes with Joe I became much more confident in myself, I feel like I am much more patient and capable to complete any question that I come across.

I have started to enjoy Maths much more.'

Auguste Bambalaite (5th Year Higher Level Student)

"Joe – I cannot thank you enough for changing my daughters mindset – haven't had Issues in a long time – she is just getting on with it with your help!!

It's a relief for us … and especially her to feel confident to work through the problems.

I don't care what grade she gets in the Mocks – she came out of Maths yesterday feeling positive.

She got stuck, went on, came back & remembered.

You have taken away her fears and for that alone I thank you sincerely."

Paula Kelly (Parent of 3rd Yr Higher Level Student)

Dear Parent,

I look forward to working closely with your child for Term 1 **(September to Christmas)** and seeing them improve their knowledge and confidence in Maths. The below is the timetable for Term 1. All student camera's will remain off during online class. All Zoom Programmes will be recorded for online students that are absent, in order to review later.

Joe McCormack

Joe McCormack, an Irish educational expert and Secondary School teacher, has taught Mathematics, Geography, ICT, ECDL, Web Design, Technical Graphics, C.S.P.E, Woodwork, and Science in various Secondary schools and Education centre's for the last twenty five years. Joe has corrected Maths Exam papers for the Department of Education and Skills and has tutored both Maths and Geography in Ireland's leading school for tuition, the Dublin Academy of Education.

Joe founded 'ACE Maths Tuition' in 2019, where both he provides expert support and guidance in small class environments for Junior and Leaving Cert Maths students. These classes facilitate regular intake throughout the academic year both Online and in Ratoath. Joe authors and retails 'ACE Maths Solution Books', as well as delivering seminars on a variety of topics in Secondary Schools and Universities. Across all subjects, his expertise very much lies in 'excelling in exams', 'efficient revision' and 'advising Maths students'. These form the themes for his 2017 publication 'How to ACE theJunior and Leaving Certificate' (for all subjects). He has had upwards of eighty articles published in both print and online press and currently runs a weekly educational blog for over 4,000 parents and students entitled 'Joe's Jotter'.

Over three hundred Teachers, Parents and Students have written recommendations and kindly recorded testimonial videos on the quality and detail of Joe's tuition and Maths publications. Joe has over 12,000 followers on Facebook.

Through his experience and research, Joe has gained a unique understanding of the struggles and obstacles students' face when it comes to the Junior and Leaving Certificate, having retailed thousands of ACE Maths Solution Books.

Expert Guidance to give you the winning hand to ACE the exams
